Education

De La Salle University — Manila, Metro Manila
BS Computer Science, major in Network Information Security · CGPA: 3.299 — *Expected Sep. 2028*

Experience

Data Annotator (Freelance) — Oct. 2026 – Present
Bureau of Soils and Water Management — *Quezon City, Metro Manila*

- Produced high-quality annotations for natural language processing (NLP) tasks.
- Evaluated LLM responses and delivered linguistic and contextual feedback to refine model behavior during real-time assessments.
- Contributed to human-in-the-loop learning pipelines to improve large language model (LLM) performance.

Associate Backend Engineer — Oct. 2024 – Sep. 2026
La Salle Computer Society — *DLSU*

- Built and maintained backend systems for the organisation's internal tools, including a high-traffic event registration platform with 30,000+ concurrent users and 99.9% uptime at its peak.
- Prepared digital materials and presentations for various organisation-wide events

Projects

Resole | *Next.js, React Native, TypeScript, Tailwind, Supabase, PostgreSQL* — Aug. 2026

- Built a full-stack P2P ecommerce marketplace for footwear with an integrated computer vision model (YOLOv8n & TFLite) and Gemini 3.1 Flash for automated price suggestions based on sneaker condition and market trends.
- Developed a scalable backend using Next.js, PostgreSQL and Drizzle ORM on Supabase for management, with Better Auth for secure authentication across listings and transactions.

Vibe-Coded Website Fuzzer | *Python* — July 2026

- Built a hybrid SAST & DAST fuzzer in Python to automate vulnerability discovery (IDOR, JWT bypasses, and rate limiting flaws) in "vibe-coded" (AI-generated) web applications
- Integrated a native CVSS v3.1 scoring model to evaluate findings and generate comprehensive, styled vulnerability risk reports.

Leap 2025 Registration System | *Express.js, Typescript, Redis, Kubernetes* — May 2025

- Built a high-traffic event registration platform engineered for reliability under extreme concurrency.
- At it's peak, the system supported 30,000+ concurrent users, 302 hosted events, and 99.9% uptime.

Listening | *React, Typescript* — Aug. 2026

- Built a live "now-playing" display integrating Last.fm, Spotify Images, and OpenWeatherMap API data, with JSON endpoints and embeddable SVG cards.
- Features account-scoped caching and concurrent request deduplication to reduce unnecessary API calls with fallback handling for incomplete artwork and stats.

Technical Skills

Languages: Python, C, Java, Javascript, Typescript, SQL (MySQL & Postgres), Redis, Valkey
Frameworks: React, Node.js, Next.js, Express.js, Tailwind, FastAPI, CUDA
Developer Tools: Git, Docker, Kubernetes, Burp, Nessus, NMAP, Postman, Metasploit
Libraries: pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow, VapourSynth, FFmpeg

Leadership & Activities

De La Salle University Fencing Team — Jun. 2024 – Present
Sabre Fencer — *Manila, Metro Manila*

- Represented the university as a student-athlete across UAAP (Seasons 87–89), local regionals, and natinoal open fencing tournmanets.

ENGLICOM — Sep. 2025 – Sep. 2026
Committee Coordinator for Alliance & External Linkages — *Manila, Metro Manila*

- Actively reached out to companies and pitched sponsorships proposals to secure event funding and strategic partnerships.
- Drafted and finalised Memorandums of Agreements (MOAs) with sponsors and partners, including OPPO (Millenial Zeal Technology Corporation), Unicharm Philippines, Gong Cha Philippines Inc., etc.
